

QUANTUM FLEX+

TRIMMERS

QUANTUM FLEX+ delivers quick blade change and non-adjustable set up across product line.

Leverages our cam-actuated, flat housing design for **quick and consistent blade changes**. Our rapid blade change housing eliminates trimmer adjustment - **no additional attention is required for the perfect blade setup**.

IMPROVED PRODUCT CONSISTENCY

Properly adjusted trimmers in the hands of well-trained operators produce more consistent & higher yields!

LIGHTWEIGHT & ERGONOMIC DESIGN

Lightweight & ergonomic design reduces operator strain & allows for longer run time with less fatigue.

UNIVERSAL PRODUCT LINE COMPONENTS

All trimmers across the product line now share consistency in setup, functionality, & many common components.

EXTENDED PARTS & TOOL LIFE

Reduce the likelihood of tight housing generated heat or loose housing vibration, which cause shorter parts & tool life.

Product Applications Include

- Fat Trimming
- Membrane Removal
- Contamination Trim
- Cheek Meats Harvest
- Fleshing Hides
- Seam Fat Trim

A model for every need

Choose from mid-size and large Quantum Flex® models to handle the full range of trimming applications.
