

# WHIZARD VERSA

TRIMMERS

**WHIZARD VERSA's™ unique twist-N-go head technology enables versatility, allowing it to complete a wide range of applications.**

The Whizard Versa™ Trimmer uses unique **ring blade technology** that **increases profitability, and process consistency.**

#### **Performance**

Our patented rotary blade technology is a game-changer, boosting productivity and slashing labor time by up to 67%.

#### **Versatility**

The unique construction, with Twist-N-Go heads and multi-speed functionality, allows a user to accomplish a multitude of tasks with one tool.

#### **Ease of Use**

The ergonomic and dishwasher-safe design allows staff to be quickly trained to operate the tool efficiently while reducing hand strain and allowing easy maintenance and cleaning.

### 180° DEGREE ROTATABLE HEAD

Choose the on/off lever placement in the palm or at the fingertips to improve comfort and reduce strain.

### TWIST-N-GO HEAD

Quickly change between different blade sizes depending on the application.

### INTEGRATED SAFETY LEVER

Prevents unintended activation of the tool, reducing the risk of injury.

### LIGHT WEIGHT ERGONOMIC DESIGN

Lightweight and ergonomic design reduces operator strain and allows for longer run time with less fatigue.

## Product Applications Include

#### Small Processors

- Cheek meat trimming
- Contamination trimming
- Fat and membrane trimming
- Trimming blood lines
- Bone scraping

#### Taxidermy

- Fleshing hides

#### BBQ

- Fat, silverskin, and membrane trimming

#### Food Service

- Gyro trimming
- Shawarma trimming

### DISHWASHER SAFE HEAD

Waterproof/Dishwasher safe design makes cleaning simple and easy.

### QUICK BLADE RELEASE

Quickly change blades with just a few turns of a screws.

### BUILT-IN ZERC GREASE FITTING

Reduce tool noise and increase part life by quickly and easily adding food-safe grease.

### HIGH SPEED/LOW SPEED BUTTON

Choose the best speed for the application to achieve the highest throughput and appearance.
